

## **OUTBOARD MOTORS**

#### Come closer look...

There are a number of boating solutions waiting for you. Whether you prefer the elegance and relaxation of a lake, speed with open sea adventures or the thrill of powering from one island to another, **Selva** will accompany you providing power, control and great service. The wonderful world

of powerboating is now affordable and ready. Reach inlets with your friends, enjoy a beautiful sunset with your partner, or amaze everyone with landscapes that will remain in their hearts together with a lifetime passion for the sea. This is the **Selva** world, a constant surprise to enjoy. Join it now.

#### 6 MODELS FROM 60HP TO 2X150 HP IN 10 VERSIONS

Burning acceleration and low consumption are the main characteristics of the Selva 4-stroke range for leisure, professional or commercial use. So they are specially developed for the most demanding people. The advanced electronic system controls all the engine's functions in the best way and gives breath-taking performance and fuel economy.

#### 32 MODELS FROM 4HP TO 2X250HP IN 96 VERSIONS

This Selva Marine range has a strong and distinctive personality that operates in total respect of nature. The use of sophisticated technologies, their compactness, elegant and innovative design make these outboard motors a range that does not go unnoticed in the pleasure boating sector.

#### 5 MODELS FROM 15HP TO 80HP IN 7 VERSIONS

Agile and easy to handle, Selva 2-strokes allow for strong and safe navigation. Lightweight and powerful, with simple and robust controls to operate, these motors are reliable and faithful workhorses that adapt well for those who use the sea for their professional or commercial activities.

COUNTER ROTATING PAIR

Some models may not be available in all countries, or they may have different, non-standard horse powers. Depending on the different national legislative requirements. (For further details see the current price list).

The data contained in this table are to be considered as approximate and **Selva Marine** reserves the right to modify the technical characteristics, materials, the right to modify the technical characteristics, materials, construction, weights, etc. without any forewarning or obligations. The 4 strokes efi engines v-6 of 200, 225 and 250 hp, single or in counterrotation, are available exclusively with the package formula with the wide range of **Selva Marine** inflatable and GRP boats.

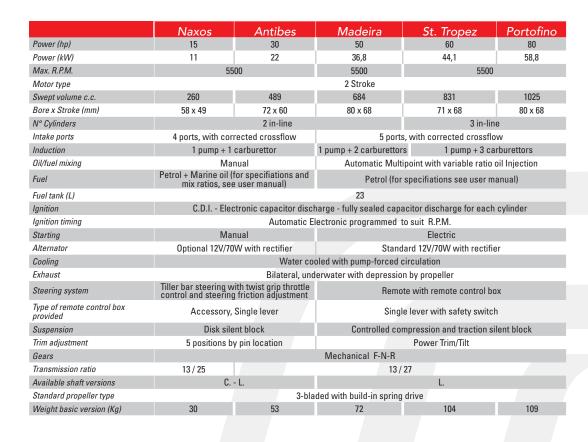

Naxos 15

Antibes 30

Madeira 50

St. Tropez

Portofino 80

The 2-stroke outboard models may not be available in all countries, or they may have different, non-standard horse powers. Depending on the different national legislative requirements. (For further details consult the current price list).

The data contained in this table are to be considered as approximate and Selva Marine reserves the right to modify the technical characteristics, materials, construction, weights, etc. without any forewarning or obligations.

The 2 stroke outboard carburated engines are not intended for installation on recreational craft within the European Union, because they have not been certified for compliance with the exhaust and noise emissions requirements of the DIRECTIVE 2013/53/EC relating to recreational craft.
